
Dispute Resolution

We advise and represent international businesses, investors, and private clients in complex litigation and international arbitration in Poland, including post-M&A disputes. Our practice focuses on cross-border commercial disputes, shareholder and corporate conflicts, and the recognition and enforcement of judgments and arbitral awards.

We advise boards, shareholders, and private investors on litigation strategy, arbitration agreements, alternative dispute resolution, and the full range of corporate and commercial disputes before Polish courts and arbitral tribunals.

Our primary concern is our clients' commercial objectives. We assess what is best for the business and then design the most effective procedural tactics or creative settlement options.

Some of the areas we typically advise clients include:

- disputes arising from M&A transactions
- commercial disputes
- defamation and reputation management
- fraud and asset recovery
- insurance liability
- intellectual property disputes
- international arbitration
- media disputes
- professional negligence
- employment disputes
- real estate litigation
- shareholder disputes
- competition proceedings
